EDUCATION

The University of Texas at Dallas

May 2025

Bachelor of Science, Computer Science

CERTIFICATIONS AND TECHNICAL SKILL EXPERIENCE

Certifications: KodeKloud – JSON Path (2022)
Programming: Java, JavaScript, C++, C#, React.js, Python, HTML & CSS
Frameworks: React-Native, Figma, Spline, Android Studio, Expo, Firebase, Linux, AWS
Relevant Courses: Data Structures & Algorithms, Systems Programming in UNIX & Other Environments, Computer Architecture, Computer Science I & II (C++, Java), Discrete Mathematics I & II

PROJECTS

Bankwise – Front-end Developer

November 2022 - November 2022

- Won **Best Design** at HackUTD IX (3rd largest hackathon in the U.S) out of **191 teams** and **1,000+ participants**
- Designed and developed a **financial data app** that integrates information from multiple bank accounts into a single, unified **platform**, utilizing a variety of **technical tools** to ensure **efficiency, reliability, and security**.
- Utilized **Figma** to create comprehensive **wireframes** that meet user needs and conducted extensive **user research** to validate the functionality of **prototypes**, ensuring a **user-centered** design approach.
- Implemented front-end using **React Native** and collaborated with **back-end** developers to enhance user experience and streamline user flow.

Shop&Share Project – Full-Stack Developer

September 2022 - November 2022

- Successfully competed at the Association for Computing Machinery's **highly selective development program**, with an acceptance rate of only 5%.
- Designed and implemented the **front-end architecture** of a shopping list app using **React Native** and **Node.js**, incorporating various front-end and back-end tools and an **SQL database** for cloud storage.
- Demonstrated proficiency in utilizing React Native to design and **implement highly functional cross-platform mobile applications**, developed advanced technical expertise in **software development** and **project management**
- **Collaborated** with a team of developers to plan and execute project milestones, **troubleshooting, resolving bugs**, and technical issues as they arose
- **Conducted user research with 200+ people** to gather feedback and improve the user experience

Music Production / Songwriting

October 2017 - Present

- Developed and released **original music**, including **singles** and full-length **albums**
- Collaborated with other artists, producers, and musicians on a variety of **projects**
- Analyzed **data and metrics**, such as streaming numbers, to assess the effectiveness of **marketing efforts** and make adjustments as needed
- Grew a dedicated fan base and increased engagement through **communication** and **interactions**
- Secured a **verified artist profile** on major music streaming platforms

ORGANIZATIONS AND LEADERSHIP EXPERIENCE

Association for Computing Machinery – Media Officer

February 2023 - Present

- Created **engaging content** for a variety of media platforms to showcase the work of ACM and its directors and **highlight** key industry trends and innovations
- Worked closely with other teams at ACM to ensure **consistency** and **alignment** across all media channels
- Maintained a cohesive and integrated **media presence** for the organization

User Experience Club – Web Developer

January 2023 - Present

- Developed and maintained a **responsive web application** using HTML, CSS, and JavaScript in accordance with modern web standards
- Collaborated with teammates including designers, event coordinators, and executive board members to ensure that the web application met **industry requirements** and **user needs**
- Utilized version control tools such as **Git and Github** to manage code changes and **collaborate** with other developers on the team
